## Our Vision

"To be the first choice for the customer's IT needs with complete customer-centricity"

### Corporate History

Logix Infosecurity Private Limited was established in the year 1999. We started as a three Member team with ONE location and currently a 100+ Team with a PAN India presence.

Logix currently caters to more than 2100 Business Enterprises including large and small.

### What we do

Cloud security, Cloud Email & Collaboration, Cloud Backup are our main focus areas, we also have a large customer base for our Network Security and on-premise Email Messaging & Collaboration solutions who are operating on Capex / Opex models as per requirements.

We have built and manage private cloud / on-premise deployments for our Email Messaging & Collaboration solutions

Owing to vast experience in managing Mailing solution, we also specialize in deployment and management of On-premise Email Solutions on Zimbra.

We offer a host of value added customization related to Mail Management & Monitoring on Zimbra through our customized Logix Control Panel.

We partner with Symantec as Cloud Service Providers to sell and support their cloud email security and end point cloud solutions.

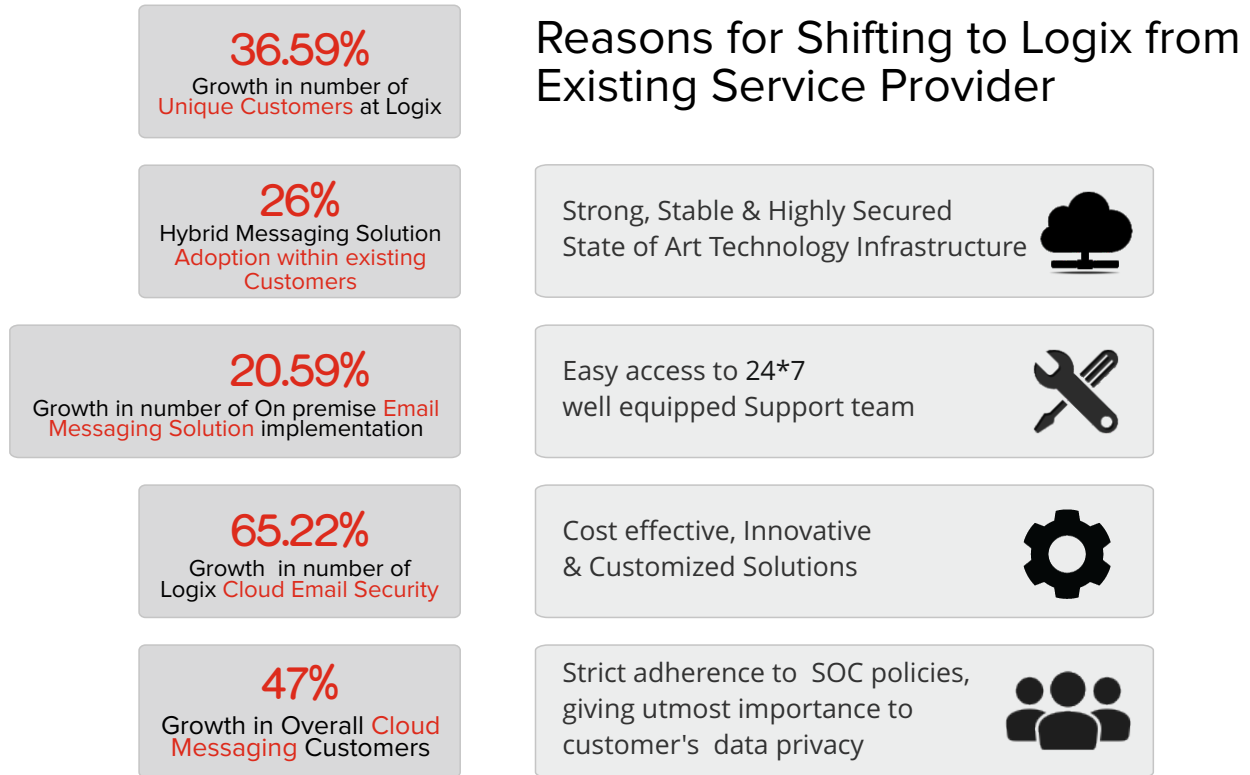

From our Network & Email Security Product offerings our expertise lies in deploying & managing Fortinet Firewall & UTM, Cisco's Email Security, F-Secure's Proofpoint MSG for business enterprises.

For Email Archiving, we have built our competencies around Barracuda's Message Archiver & Mail Vault's Email Archiver deployments.
